The use of face masks has become mainstream on a global scale, not only as a preventative measure in terms of contracting infectious diseases like COVID-19, but more importantly as a means to limit the possible spread should you already be infected. This 3-ply, a non-surgical mask is ideal for personal use and has no impact on the global shortage and demand for surgical masks by medical professionals and healthcare workers on the frontline. 17.5 x 9.5 3-ply non-woven fabric, melt-blown cloth disinfection treatment prevents the spread of germs single-use only includes CE/FDA certification unisex Sold in multiples of 50 Due to health, safety and hygiene protocols, we will not accept any returns on this product. Minimum order quantity: 500
